Course content

Why Attend

Agile approaches have become standard practice for delivering projects in uncertain and fast-changing environments, not only in software but in marketing, product development, government and engineering.

The PMI Agile Certified Practitioner (PMI-ACP)® certification recognises professionals who understand agile principles and can apply a wide range of agile methods including Scrum, Kanban, Lean, Extreme Programming and hybrid approaches.

Course Methodology

• This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes an interactive mixture of lecture-led learning, case studies, practical exercises and group discussions.

Course Objectives

• Understand core principles and best practices covered in Preparation for PMI Agile Certified Practitioner (PMI-ACP)®.

• Apply practical techniques to day-to-day operational challenges.

• Build an implementation action plan suitable for your organization.

Target Audience

• Project managers adopting agile approaches

• Scrum Masters, agile coaches and team leads

• Product owners and business analysts

• Members of agile delivery teams
