Why Attend

The EU Artificial Intelligence Act is the world's first comprehensive law on AI, and its obligations reach any organisation that places AI systems on the EU market or whose AI outputs are used in the EU, including companies in the Gulf, Africa and Asia.

Beyond legal compliance, customers and employees increasingly expect AI to be fair, transparent, safe and respectful of privacy. Responsible AI has become a competitive differentiator and a condition for public trust.

Course Methodology

• This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes an interactive mixture of lecture-led learning, case studies, practical exercises and group discussions.

Course Objectives

• Understand core principles and best practices covered in Responsible AI and the EU AI Act: Compliance for Organisations.

• Apply practical techniques to day-to-day operational challenges.

• Build an implementation action plan suitable for your organization.

Target Audience

• Legal counsel and compliance officers

• Data protection officers and privacy professionals

• AI product owners and data science leaders

• Risk managers and internal auditors
