Course content

Why Attend

INTRODUCTION

This Artificial Intelligence in Contract and Project Management training course is designed to equip professionals with the skills to effectively integrate AI technologies into contract management and project optimization.

Course Methodology

Course Objectives

- Understand key contractual arrangements in selected industries
- Apply AI tools to optimize project scheduling and resource allocation
- Utilize AI for effective risk prediction and management
- Draft and review contracts using AI technology
- Evaluate AI's role in dispute resolution and negotiation
- Training Methodology

Target Audience

Course outline

Detailed course outline

Module-by-module outline for Artificial Intelligence in Contract and Project Management.

- Overview of Business Structures and Contracting
- Emergence of AI and its application in society and business
- What can AI do and what it can't do?
- The benefits and risks of using AI tools for contract negotiation
- Contract Formation: terms and conditions

Module 2 - AI in Commercial Contracts Drafting: Enhancing Speed and Compliance

- Can AI draft a commercial contract?
- Remedies of Breach of Contracts
- Damages: Compensatory, Consequential and Incidental
- Damages, Liquidated Damages
- Termination of Contracts: AI role?
- The traditional commercial contract drafting process

Course outline

Detailed course outline

Module-by-module outline for Artificial Intelligence in Contract and Project Management.

Module 3 - AI in Commercial Contract Negotiations: How to do so profitably?

- Negotiating Commercial Contracts
- Joint Venture (JV)
- Example- Production Sharing Contracts (PSC)
- Fundamental Legal Principles
- Commercial Realities
- Cultural and Language Issues

Module 4 - AI and Contract Management

- Risk Management and AI
- The role of AI in contract management
- Sending payment reminders, contract renewals reminders
- Tracking contracts performance
- Identifying any potential breaches of contract
- Managing end-to-end contracting workflow

Course outline

Detailed course outline

Module-by-module outline for Artificial Intelligence in Contract and Project Management.

Module 5 - AI role in Dispute Resolution under Cross Border / International Agreements

- The emergence of AI and its application in dispute avoidance
- AI and developing negotiation strategies in dispute avoidance under commercial contracts
- Arbitration & Mediation – Important Differences
- Mediation and Conciliation, Adjudication, Dispute Boards - save time and costs
- Enforcement of International Arbitration Awards under the New York Convention
- Contemporary Developments in Case Law and Legislation
