Course content

Why Attend

Internal audit plays a vital role in strengthening governance, improving controls, managing risks, and supporting strategic success. Modern internal auditors are expected to provide assurance, insight, and practical advice that adds measurable value. This course equips participants with advanced internal audit tools, risk-based planning methods, and techniques for auditing key business areas including procurement, human resources, and information technology.

Course Methodology

• This course uses an interactive and practical approach through presentations, case studies, audit simulations, group discussions, control reviews, risk assessment exercises, and real workplace examples.

Course Objectives

- Understand modern internal audit practices and value creation
- Develop effective risk-based internal audit plans
- Strengthen stakeholder engagement and audit impact
- Audit risk management frameworks effectively
- Review procurement risks and fraud exposure
- Audit HR and people-related risks

Target Audience

- Internal Auditors
- Audit Managers
- Risk Management Professionals
- Compliance Officers
