Course content

Why Attend

Does Risk Management make any serious contribution to Business Performance? Do we really need to do it?

Risk Management is the way the organisation balances the inevitability of risk in the pursuit of profit and objectives, with the need to protect its assets. By attending this Certificate in Risk Management & Business Performance training course, you will be able to prepare for and manage in circumstances where foreseen and/or unforeseen risks may be serious or even catastrophic. During the training course you will learn about the common shortfalls and inadequacies in the treatment of risk, as well as how to do it well. Risk management is often conducted poorly, but if applied coherently and rigorously, can contribute extensively to performance and competitiveness of operations, and the whole organisation.

Course Methodology

Course Objectives

- Master the concepts, approaches, international standards, methods and techniques for the effective implementation of Risk Management
- Discuss & learn the practical application of these best practices, through case studies & exercises
- Evaluate current provision & develop mechanisms to support application across the organisation
- Guide organisational deployment
- Champion Risk Management at all levels of the organisation

Target Audience

- This Certificate in Risk Management & Business Performance training course is suitable to a wide range of professionals who are involved in any aspect of Risk Management and who want to understand, implement and improve the most up to date Risk Management concepts, processes and ideas. For example:
- Experienced Risk & Business Continuity Managers & Practitioners desiring a refresher on recent developments
- Internal auditors and Compliance Managers who seek to fully understand Risk Management & ISO 31000
- Team leaders, supervisors, section heads and managers
