Why Attend

Construction sites are constrained spaces where deliveries, storage, access and waste must be carefully managed. Poor logistics cause delays, safety issues and high waste costs.

This Aractech course covers site logistics planning, delivery management, material storage and handling, access and traffic, just-in-time supply, consolidation centres, site waste management, recycling and environmental compliance. Participants develop a logistics and waste plan.

Course Methodology

- Site case studies
- Planning workshops
- Group discussions
- Layout exercises
- Reviews

Course Objectives

- Plan construction site logistics
- Manage deliveries and access
- Store and handle materials efficiently
- Apply just-in-time and consolidation approaches
- Minimise and manage construction waste
