Waarderweg 50, 2031PB Haarlem - Netherlands.

Course content

Why Attend

Contractors often carry out the highest-risk work and are involved in a disproportionate share of serious incidents. Clients remain responsible for ensuring contractors work safely on their sites.

This Aractech course covers the contractor safety life cycle: risk-based pre-qualification, HSE requirements in contracts, selection, induction, planning, supervision, monitoring, performance evaluation and close-out. Participants build a contractor safety management process for their organisation.

Course Methodology

- Process presentations
- Case studies
- Pre-qualification exercises
- Monitoring workshops
- Group discussions

Course Objectives

- Understand client and contractor HSE responsibilities
- Pre-qualify and select contractors based on HSE capability
- Define HSE requirements in contracts
- Induct, plan and supervise contractor work
- Monitor and evaluate contractor HSE performance
- Build a contractor safety management system

Target Audience

- HSE professionals
- Contract and procurement managers

Course content

- Contract holders and supervisors
- Project managers

Course outline

Detailed course outline

Day-by-day outline for Contractor Safety Management.

Day 1 - Contractor Safety Fundamentals

- 09:00-09:39 | Contractor risk
