Waarderweg 50, 2031PB Haarlem - Netherlands.

Course content

Why Attend

Government holds vast amounts of data that can improve policy, services and transparency when well governed and shared. Poor data governance limits value and creates privacy and security risks.

This Aractech course covers public sector data strategy, data governance roles, data quality, data sharing between agencies, open data principles and platforms, privacy and security, data for policy and measuring value. Participants design a data governance framework for a government entity.

Course Methodology

- Case studies
- Governance design workshop
- Open data exercises
- Group discussions
- Planning

Course Objectives

- Develop public sector data strategies
- Establish data governance roles and policies
- Improve data quality and interoperability
- Enable secure data sharing between agencies
- Implement open data programmes
- Use data for policy and measure value

Target Audience

- Government chief data officers
- Data and statistics officials

Course content

- IT managers
- Policy analysts

Course outline

Detailed course outline

Day-by-day outline for Government Data Governance and Open Data.

Day 1 - Data in Government
