Course content

Why Attend

Security managers protect people, assets, information and reputation against a wide range of threats, from theft and violence to terrorism and insider risk. The role demands strategic thinking as well as operational expertise.

This Aractech course covers the full scope of security management: security strategy and governance, threat and risk assessment, physical and technical security, security operations, investigations, crisis and incident management, personnel security, budgets and performance. Participants develop a security management plan for their organisation.

Course Methodology

- Expert-led sessions
- Risk assessment workshops
- Case studies
- Scenario exercises
- Planning

Course Objectives

- Develop security strategy and governance
- Assess threats, vulnerabilities and risks
- Design layered physical and technical security
- Manage security operations and personnel
- Handle incidents, investigations and crises
- Measure security performance and manage budgets

Course content

Target Audience

- Security managers and supervisors
- Facilities and risk managers
- Corporate security staff
- Loss prevention managers
