Course content

Why Attend

Energy projects are characterized by high capital exposure, long execution timelines, and complex technical and market uncertainties. Strategic decisions made early in the project lifecycle have a direct impact on profitability, safety, and operational success.

This course equips professionals with advanced risk and decision analysis techniques to support strategic planning, investment evaluation, and project execution in uncertain environments. It enables participants to move beyond qualitative risk identification toward structured, evidence-based decision-making.

Course Methodology

- Real-life energy and oil & gas case studies
- Facilitated group discussions and decision workshops
- Scenario-based simulations and strategic exercises
- Application of structured analytical frameworks
- Practical tools for immediate use in projects

Course Objectives

- Apply strategic risk analysis techniques in energy projects
- Evaluate complex project decisions under uncertainty
- Integrate risk thinking into strategic planning and investment decisions
- Use structured frameworks for multi-criteria decision analysis
- Assess project alternatives based on risk-adjusted outcomes
- Improve decision quality in high-stakes environments

Target Audience

- This program is designed for:
- Project Managers and Senior Engineers
- Risk Management Professionals

Course outline

Detailed course outline

Day-by-day outline for Strategic Project Risk & Decision Analysis for Energy Sector Professionals.

Day 1 - Strategic Risk Fundamentals in Energy Projects

- Understanding strategic risk in energy sector projects
- Sources of uncertainty in large-scale energy investments
- Risk management frameworks and governance structures
- Identifying and structuring strategic risks
- Developing a strategic risk register
- Qualitative risk analysis and prioritization techniques

Day 2 - Quantitative Risk Analysis for Strategic Decisions

- Introduction to quantitative risk thinking
- Probability concepts applied to project risk
- Sensitivity analysis and key risk drivers
- Introduction to simulation-based thinking (Monte Carlo concepts)
- Evaluating uncertainty in cost, schedule, and performance
- Interpreting risk outputs for decision support

Course outline

Detailed course outline

Day-by-day outline for Strategic Project Risk & Decision Analysis for Energy Sector Professionals.

Day 3 - Decision Analysis Frameworks

- Decision-making under uncertainty principles
- Decision trees and expected value analysis
- Multi-criteria decision analysis (MCDA)
- Risk appetite and strategic trade-offs
- Evaluating investment alternatives
- Case study: Energy project investment decision

Day 4 - Scenario Planning & Strategic Risk Modeling

- Scenario development for energy projects
- Stress testing and extreme scenario analysis
- Modeling dependencies and interrelated risks
- Strategic portfolio risk considerations
- Risk mitigation and optimization strategies
- Practical workshop: scenario-based decision modeling

Course outline

Detailed course outline

Day-by-day outline for Strategic Project Risk & Decision Analysis for Energy Sector Professionals.

Day 5 - Embedding Risk into Strategic Decision-Making

- Integrating risk analysis into strategic planning
- Governance and executive risk reporting
- Communicating uncertainty to senior stakeholders
- Enhancing decision quality in capital projects
- Industry best practices from energy sector
- Final case study and group presentations

Seminar dates

Available seminar dates

Live dates and pricing for Strategic Project Risk & Decision Analysis for Energy Sector Professionals generated from the course details page.

Date	Location	Format	Fee
1 - 5 June 2026	Kuala Lumpur	Classroom	€1,575
8 - 12 June 2026	Paris	Classroom	€3,080
15 - 19 June 2026	Barcelona	Classroom	€2,940
6 - 10 July 2026	Munich	Classroom	€2,975
20 - 24 July 2026	Kuala Lumpur	Classroom	€1,575
3 - 7 August 2026	Amsterdam	Classroom	€2,940
10 - 14 August 2026	London	Classroom	€2,975

Live online option

Online delivery is available at €1,250.
