Course content

Why Attend

Warehouses must deliver accurate, fast and cost-effective service while keeping people safe. Operational excellence combines layout, processes, technology and people management.

This Aractech course covers warehouse layout and slotting, receiving and putaway, picking methods, packing and dispatch, inventory accuracy, warehouse management systems, productivity, safety and KPIs. Participants redesign a warehouse process.

Course Methodology

- Practical presentations
- Layout exercises
- Case studies
- Process redesign
- Group discussions

Course Objectives

- Design efficient warehouse layouts and slotting
- Improve receiving and putaway
- Select and optimise picking methods
- Improve inventory accuracy
- Use warehouse management systems
- Measure and improve warehouse performance

Target Audience

- Warehouse managers and supervisors
- Logistics managers

Course content

- Inventory controllers
- Operations managers
